LABELS

Each crate should be appropriately labeled on each side. Do not label the top of your container as items may be stacked.

COMMERCIAL INVOICE/PACKING LIST

TWI has provided [country specific](#) commercial invoices for your use. These templates have specific verbiage for each country. Complete these Excel documents and return them in Excel format by the document deadline date.

Temporary and permanent goods must be packed separately with separate invoices.

Harmonized Tariff Schedule (HTS) codes are used for commodity classifications for customs' purposes. They are mandatory for each item. Please use this link to find the appropriate code for your item. [Harmonized Tariff Website](#)

PACKING

In order to minimize damage to the goods you will be shipping, please ensure if at all possible that your shipment is skidded before it leaves your facility. It must be packed in separate boxes and individually labeled. Contact your TWI representative for further details.

Due to multiple handling of freight cases TWI urges exhibitors to use strong wooden cases. Bolted returnable types of cases that offer protection from the elements are ideal. If your cases are secured with a lock or combination please provide the key or combination at time of tender for Customs access if necessary.

SHIPMENTS WITH NON-MANUFACTURED WOOD PACKING

All shipments containing Non-Manufactured Wood Packing (NMWP) must be either **heat-treated or fumigated**. NMWP and Solid Wood Packing Material (SWPM) must bear markings indicating the type of treatment under the ISPM 15 regulations.

Any packing that does not comply with these requirements will be refused, destroyed, or returned to its origin, resulting in a considerable delay.

Please contact your TWI representative if you have any questions regarding the NMWP rule.
